Online catalogue

The Library computer catalogue is now available to search [online](#). Fifteen years of cataloguing has resulted in records for some 38,000 books, pamphlets and offprints in Dr Williams's Library and the Congregational Library. The catalogue also includes references to over 65,000 journal articles. Work to add records from the pre-1987 card catalogues is ongoing so please continue to [contact the Library](#) if you would like to fully check our holdings.

If you have any problems accessing the catalogue, please try again later. There are over 400 subscribers to this e-bulletin and we have a limited number of user licenses!

We would love to hear your feedback on our new catalogue. Please email the Principal Librarian: alice.ford-smith@dwlib.co.uk.
